CSC 380: Principles of Data Science

Tue/Thu, 2:00 – 3:15pm, Gould-Simpson, Rm 906
Web: https://kwangsungjun.github.io/teach/22.1.csc380

Description of Course
The course introduces students to principles of data science that are necessary for computer scientists to make effective decisions in their professional careers. A number of computer science sub-disciplines now rely on data collection and analysis. For example, computer systems are now complicated enough that comparing the execution performance of two different programs becomes a statistical estimation problem rather than a deterministic computation. This course teaches students the basic principles of how to properly collect and process data sources in order to derive appropriate conclusions from them. The course has three main components: data analysis, machine learning, and a project where students apply the concepts discussed in class to a substantial open-ended problem.

Course Prerequisites
Major: COSCBA or COSCBS. Completion of CSC 210 and CSC 245.

Instructor and Contact Information
Instructor name, office location, telephone number, e-mail address
Office Hours/"Open Door Policy"
Teaching assistants (if applicable) and their contact information and office hours (if applicable)
Web information, including course home page, instructor home page, and D2L information

Kwang-Sung Jun
Gould-Simpson 746
kjun@cs.arizona.edu
Office hours
- Saiful Islam Salim, Tuesdays, 10:00 – 11:00, Gould-Simpson Rm 942 (Hybrid) to be updated
- Kwang-Sung Jun, Mondays 4-5pm (Zoom), Gould-Simpson Rm 746

Obtaining Help

- Academic advising: If you have questions about your academic progress this semester, or your chosen degree program, consider contacting your department’s academic advisor(s). Your academic advisor and the Advising Resource Center can guide you toward university resources to help you succeed. Computer Science major students are encouraged to email advising@cs.arizona.edu for academic advising related questions.
- CS Tutor Center: The Department of Computer Science offers FREE tutoring for students enrolled in CSC courses. You can view tutor schedules and sign up for tutoring sessions by visiting our CS Tutoring Page.
- Life challenges: If you are experiencing unexpected barriers to your success in your courses, please note the Dean of Students Office is a central support resource for all students and may be helpful. The Dean of Students Office can be reached at 520-621-2057 or DOS-
Class Recordings

- The class recordings will be made for every class and available via D2L.
- If the student does not wish to be identified by name, please let the instructor know.
- For lecture recordings, which are used at the discretion of the instructor, students must access content in D2L only. Students may not modify content or re-use content for any purpose other than personal educational reasons. All recordings are subject to government and university regulations. Therefore, students accessing unauthorized recordings or using them in a manner inconsistent with UArizona values and educational policies (Code of Academic Integrity and the Student Code of Conduct) are also subject to civil action.

Course Objectives

An introduction to basic concepts in data science and machine learning. Topics include: descriptive statistics, basic data analysis, basic data visualization, predictive models and training, basic supervised and unsupervised learning models, evaluation measures.

Expected Learning Outcomes

A student who successfully completes this course will be able to:

1. Explain the difference between different measures of centrality and variability (means vs medians, variance vs interquartile range, etc.) (Part 1: remedial descriptive stats outcome)
2. Articulate the meaning of confidence intervals associated with statistical hypothesis tests (Part 1: remedial stats outcome)
3. Learn how to use probability and non-probability sampling to collect data from a population (Part 2: data collection outcome)
4. Learn how to identify potential sampling bias (Part 2: data collection outcome)
5. Convert a “raw” data source into a version appropriate for downstream analysis using Python (Part 2: data processing outcome)
6. Write appropriate visualizations for different sources and types of data (Part 2: basic data visualization outcome)
7. Explain why we seek to build machine learning models that generalize rather than memorize their inputs (Part 3: basic machine learning outcome)
8. Explain the different uses for training, validation, and testing datasets (Part 3 basic machine learning outcome)
9. Select appropriate evaluation measure for the dataset and task being solved (Part 3: basic machine learning outcome)
10. Articulate the difference between supervised and unsupervised machine learning, as well as select the appropriate methodology for a given problem (Part 3: basic machine learning outcome)

Absence and Class Participation Policy

NOTE TO CS INSTRUCTORS - Recommend that you provide specific information about your absence policy and how you will handle exceptions. Encourage students to see an advisor if it is after the drop period (when a W will not appear on the transcript). Advisors will provide options and alternatives as appropriate for individual student situations.

If students desire to withdraw after the course withdrawal deadline, they are encouraged to see an advisor. Advisors will provide options and alternatives as appropriate for individual student situations.

Absence

The UA’s policy concerning Class Attendance, Participation, and Administrative Drops is available at http://catalog.arizona.edu/policy/class-attendance-participation-and-administrative-drop

The UA policy regarding absences for any sincerely held religious belief, observance or practice will be accommodated where reasonable: http://policy.arizona.edu/human-resources/religious-accommodation-policy.

Absences pre-approved by the UA Dean of Students (or dean’s designee) will be honored. See https://deanofstudents.arizona.edu/absences

Participating in the course and attending lectures and other course events are vital to the learning process. As such, attendance is required at all lectures. Absences may affect a student’s final course grade. If you anticipate being absent, are unexpectedly absent, or are unable to participate in class online activities, please contact me as soon as possible. To request a disability-related accommodation to this attendance policy, please contact the Disability Resource Center at (520) 621-3268 or drc-info@email.arizona.edu. If you are experiencing unexpected barriers to your success in your courses, the Dean of Students Office is a central support resource for all students and may be helpful. The Dean of Students Office is located in the Robert L. Nugent Building, room 100, or call 520-621-7057.

Illnesses and Emergencies

- If you feel sick, or may have been in contact with someone who is infectious, stay home. Except for seeking medical care, avoid contact with others and do not travel.
- Notify your instructor(s) if you will be missing up to one week of course meetings and/or assignment deadlines.
- If you must miss the equivalent of more than one week of class and have an emergency, the Dean of Students is the proper office to contact (DOS-deanofstudents@email.arizona.edu). The Dean of Students considers the following as qualified emergencies: the birth of a child, mental health hospitalization, domestic violence matter, house fire, hospitalization for physical health (concussion/emergency surgery/coma/COVID-19 complications/ICU), death of immediate family, Title IX matters, etc.
- Please understand that there is no guarantee of an extension when you are absent from class and/or miss a deadline.
Statement on compliance with COVID-19 mitigation guidelines

As we enter the Spring semester, our health and safety remain the university’s highest priority. To protect the health of everyone in this class, students are required to follow the university guidelines on COVID-19 mitigation. Please visit www.covid19.arizona.edu.

Makeup Policy for Students Who Register Late

Statement on whether students who register after the first class meeting may make up missed assignments/quizzes and the deadline for doing so

Course Communications

All announcements will be made via D2L. Assignments will be distributed and submitted via Gradescope. Off-class discussions among students and questions to the instructors/TAs will be conducted via Piazza. Office hours with the professor will be conducted remotely, over Zoom.

Required Texts or Readings

The following two textbooks can be accessed online via UA library.

Required or Special Materials

None

Required Extracurricular Activities

None

Homeworks will be due in 9 days.

Final Examination
This course will have a final examination on Monday, May 15, 3:30-5:30pm.

The date and time of the final exam or project, along with links to the Final Exam Regulations, https://www.registrar.arizona.edu/courses/final-examination-regulations-and-information, and Final Exam Schedule, http://www.registrar.arizona.edu/schedules/finals.htm.

Grading Scale and Policies
Specify the grade distribution for the course. University policy regarding grades and grading systems is available at http://catalog.arizona.edu/policy/grades-and-grading-system

Provide a detailed explanation of the methods of evaluation and how the final grade will be calculated, including components/assignments, weightings, evaluation criteria, explanation of how late work will be graded, and description of extra-credit opportunities.

- Assignments: 40%
- Midterm: 15%
- Project: 10%
- Final Exam: 20%
- Quiz/Participation: 10%

Grade Distribution for this Course:
A: 90% and above
B: 80%
C: 70%
D: 60%
E: 59% and below

University policy regarding grades and grading systems is available at http://catalog.arizona.edu/policy/grades-and-grading-system

Policies
- Late assignments receive a grade of zero.
- All exams will be closed-book.
- Missed exams result in a grade of zero.
- The grading of homeworks, midterm exam, and project will be available in 5 days. The graded homework will be returned before the next homework is due.
- There will be no late days for homework submissions – plan ahead. The final exam grading will be available within 48 hours.
- Grading delays beyond promised return-by dates will be announced as soon as possible with an explanation for the delay.

Incomplete (I) or Withdrawal (W):
Requests for incomplete (I) or withdrawal (W) must be made in accordance with University policies, which are available at http://catalog.arizona.edu/policy/grades-and-grading-system#incomplete and http://catalog.arizona.edu/policy/grades-and-grading-system#Withdrawal respectively.
Honors Credit
Students wishing to contract this course for Honors Credit should e-mail me to set up an appointment to discuss the terms of the contract and to sign the Honors Course Contract Request Form. The form is available at http://www.honors.arizona.edu/honors-contracts

Scheduled Topics/Activities
List topics in logical units in a weekly/daily schedule, including assignment due dates and exam dates.

| Week 01: Course mechanics, introduction to data science |
| Week 02: Probability |
| HW1 Assigned |
| Week 03: Statistics |
| HW1 Due, HW2 Assigned |
| Week 04: Data Collection and Exploratory Analysis |
| HW2 Due, HW3 Assigned |
| Week 05: Data Processing and Visualization |
| HW3 Due, HW4 Assigned |
| Week 06: Hypothesis testing |
| HW4 Due |
| Week 07: Hypothesis testing |
| Week 08: Midterm + Introduction to Machine Learning |
| Week 09: Predictive Models |
| HW5 Assigned |
| Week 10: Supervised Learning (Linear Models) |
| HW5 Due, HW6 Assigned |
| Week 11: Supervised Learning (Nonlinear Models) |
| HW6 Due |
| Week 12: Unsupervised Learning (Clustering) |
| HW7 Assigned |
| Week 13: Unsupervised Learning (Dimensionality Reduction) |
| HW7 Due, HW8 Assigned |
| Week 14: Model Assessment |
| HW8 Due |
| Week 15: Data Science Ethics |
| Week 16: Project due, Final Exam |

Department of Computer Science Code of Conduct
The Department of Computer Science is committed to providing and maintaining a supportive educational environment for all. We strive to be welcoming and inclusive, respect privacy and confidentiality, behave respectfully and courteously, and practice intellectual honesty. Disruptive behaviors (such as physical or emotional harassment, dismissive attitudes, and abuse of department resources) will not be tolerated. The complete Code of Conduct is available on our
department web site. We expect that you will adhere to this code, as well as the UA Student Code of Conduct, while you are a member of this class.

Classroom Behavior Policy
To foster a positive learning environment, students and instructors have a shared responsibility. We want a safe, welcoming, and inclusive environment where all of us feel comfortable with each other and where we can challenge ourselves to succeed. To that end, our focus is on the tasks at hand and not on extraneous activities (e.g., texting, chatting, reading a newspaper, making phone calls, web surfing, etc.).

Students are asked to refrain from disruptive conversations with people sitting around them during lecture. Students observed engaging in disruptive activity will be asked to cease this behavior. Those who continue to disrupt the class will be asked to leave lecture or discussion and may be reported to the Dean of Students.

Threatening Behavior Policy
The UA Threatening Behavior by Students Policy prohibits threats of physical harm to any member of the University community, including to oneself. See http://policy.arizona.edu/education-and-student-affairs/threatening-behavior-students.

Accessibility and Accommodations
At the University of Arizona, we strive to make learning experiences as accessible as possible. If you anticipate or experience barriers based on disability or pregnancy, please contact the Disability Resource Center (520-621-3268, https://drc.arizona.edu/) to establish reasonable accommodations.

Code of Academic Integrity
Students are encouraged to share intellectual views and discuss freely the principles and applications of course materials. However, graded work/exercises must be the product of independent effort unless otherwise instructed. Students are expected to adhere to the UA Code of Academic Integrity as described in the UA General Catalog. See http://deanofstudents.arizona.edu/academic-integrity/students/academic-integrity.

Uploading material from this course to a website other than D2L (or the class piazza) is strictly prohibited and will be considered a violation of the course policy and a violation of the code of academic integrity. Obtaining material associated with this course (or previous offerings of this course) on a site other than D2L (or the class piazza), such as Chegg, Course Hero, etc. or accessing these sites during a quiz or exam is a violation of the code of academic integrity. Any student determined to have uploaded or accessed material in an unauthorized manner will be reported to the Dean of Students for a Code of Academic Integrity violation, with a recommended sanction of a failing grade in the course.

The University Libraries have some excellent tips for avoiding plagiarism, available at http://new.library.arizona.edu/research/citing/plagiarism.

Selling class notes and/or other course materials to other students or to a third party for resale is not permitted without the instructor’s express written consent. Violations to this and other course rules are subject to the Code of Academic Integrity and may result in course sanctions. Additionally, students who use D2L or UA e-mail to sell or buy these copyrighted materials are subject to Code of Conduct Violations for misuse of student e-mail addresses. This conduct may
also constitute copyright infringement.

**Nondiscrimination and Anti-harassment Policy**

The University of Arizona is committed to creating and maintaining an environment free of discrimination. In support of this commitment, the University prohibits discrimination, including harassment and retaliation, based on a protected classification, including race, color, religion, sex, national origin, age, disability, veteran status, sexual orientation, gender identity, or genetic information. For more information, including how to report a concern, please see [http://policy.arizona.edu/human-resources/nondiscrimination-and-anti-harassment-policy](http://policy.arizona.edu/human-resources/nondiscrimination-and-anti-harassment-policy)

Our classroom is a place where everyone is encouraged to express well-formed opinions and their reasons for those opinions. We also want to create a tolerant and open environment where such opinions can be expressed without resorting to bullying or discrimination of others.

**Additional Resources for Students**

UA Academic policies and procedures are available at [http://catalog.arizona.edu/policies](http://catalog.arizona.edu/policies)

Visit the **UArizona COVID-19** page for regular updates.

- **Campus Health**
  - [http://www.health.arizona.edu/](http://www.health.arizona.edu/)
  - Campus Health provides quality medical and mental health care services through virtual and in-person care. Voluntary, free, and convenient [COVID-19 testing](https://www.health.arizona.edu/coronavirus-testing) is available for students on Main Campus. COVID-19 vaccine is available for all students at [Campus Health](https://www.health.arizona.edu/campus-health).
  - Phone: 520-621-9202

- **Counseling and Psych Services (CAPS)**
  - [https://health.arizona.edu/counseling-psych-services](https://health.arizona.edu/counseling-psych-services)
  - CAPS provides mental health care, including short-term counseling services.
  - Phone: 520-621-3334

- **The Dean of Students Office’s Student Assistance Program**
  - [http://deanofstudents.arizona.edu/student-assistance/students/student-assistance](http://deanofstudents.arizona.edu/student-assistance/students/student-assistance)
  - Student Assistance helps students manage crises, life traumas, and other barriers that impede success. The staff addresses the needs of students who experience issues related to social adjustment, academic challenges, psychological health, physical health, victimization, and relationship issues, through a variety of interventions, referrals, and follow up services.
  - Email: [DOS-deanofstudents@email.arizona.edu](mailto:DOS-deanofstudents@email.arizona.edu)
  - Phone: 520-621-7057

- **Survivor Advocacy Program**
  - [https://survivoradvocacy.arizona.edu/](https://survivoradvocacy.arizona.edu/)
  - The Survivor Advocacy Program provides confidential support and advocacy services to student survivors of sexual and gender-based violence. The Program can also advise students about relevant non-UA resources available within the local community for support.
  - Email: [survivoradvocacy@email.arizona.edu](mailto:survivoradvocacy@email.arizona.edu)
  - Phone: 520-621-5767

rev 01/06/2022
Campus Pantry
Any student who has difficulty affording groceries or accessing sufficient food to eat every day, or who lacks a safe and stable place to live and believes this may affect their performance in the course, is urged to contact the Dean of Students for support. In addition, the University of Arizona Campus Pantry is open for students to receive supplemental groceries at no cost. Please see their website at: campuspantry.arizona.edu for open times.
Furthermore, please notify me if you are comfortable in doing so. This will enable me to provide any resources that I may possess.

Preferred Gender Pronoun
This course affirms people of all gender expressions and gender identities. If you prefer to be called a different name than what is on the class roster, please let me know. Feel free to correct instructors on your preferred gender pronoun. If you have any questions or concerns, please do not hesitate to contact me directly in class or via email (instructor email). If you wish to change your preferred name or pronoun in the UAccess system, please use the following guidelines:

Preferred name: University of Arizona students may choose to identify themselves within the University community using a preferred first name that differs from their official/legal name. A student’s preferred name will appear instead of the person’s official/legal first name in select University-related systems and documents, provided that the name is not being used for the purpose of misrepresentation. Students are able to update their preferred names in UAccess.

Pronouns: Students may designate pronouns they use to identify themselves. Instructors and staff are encouraged to use pronouns for people that they use for themselves as a sign of respect and inclusion. Students are able to update and edit their pronouns in UAccess.

More information on updating your preferred name and pronouns is available on the Office of the Registrar site at https://www.registrar.arizona.edu/.

Safety on Campus and in the Classroom

Land Acknowledgement Statement
We respectfully acknowledge the University of Arizona is on the land and territories of Indigenous peoples. Today, Arizona is home to 22 federally recognized tribes, with Tucson being home to the O’odham and the Yaqui. Committed to diversity and inclusion, the University strives to build sustainable relationships with sovereign Native Nations and Indigenous communities through education offerings, partnerships, and community service.

Subject to Change Statement
Information contained in the course syllabus, other than the grade and absence policy, may be subject to change with advance notice, as deemed appropriate by the instructor.
